The Modern Technology of Rehabilitation

## The **PortableConnect** system: The smart home rehab solution designed for your life.

After a successful knee or hip surgery, your journey along the road to recovery still has checkpoints ahead. With the **PortableConnect** system, you can optimize your physical therapy and put yourself on a faster route to full recovery and healing—all from the comfort of home.

The **Interactive Portal** provides simple audio/video instructions, captures data, and tracks your progress.

The **AccuAngle** removable Bluetooth device records knee range of motion during sessions.

**SmartPedals** automatically adjust resistance and positioning to ensure gentle, therapeutic movement within a comfortable range of motion.

**PortableConnect** can be used on your own time and at your convenience. With smart technology that adjusts to your unique needs, **PortableConnect** makes it easier than ever to:

**STAY CONNECTED** with your care team

**TAKE CHARGE** of your rehab journey

Get back to your favorite outings and activities **FASTER!**<sup>2</sup>

*"The machine talks to me, encourages me. It doesn't care what I'm wearing, or what time of day I'm doing it...It can make your life better!"*

— ROMTech patient

## It's easy to get your **PortableConnect**

**STEP 1**

Once your surgeon prescribes PortableConnect, ROMTech will call you to confirm your order and insurance information.

We'll work with your insurance company to determine coverage. The device is covered by most insurance plans, including Medicare.

**STEP 2**

ROMTech will contact you to coordinate delivery. Our Support Specialists will set up your system and show you how it works.

**STEP 3**

After 3 or 6 weeks (depending on the prescribed length of therapy), the ROMTech Support Specialist will pick up the system from your home.

Options for extending your usage period may be covered by your insurance!
